**Torture and Democracy**-Darius Rejali 2009-06-08 This is the most comprehensive, and most comprehensively chilling, study of modern torture yet written. Darius Rejali, one of the world's leading experts on torture, takes the reader from the late nineteenth century to the aftermath of Abu Ghraib, from slavery and the electric chair to electro-torture in American inner cities, and from French and British colonial prison cells and the Spanish-American War to the fields of Vietnam, the wars of the Middle East, and the new democracies of Latin America and Europe. As Rejali traces the development and application of one torture technique after another in these settings, he reaches startling conclusions. As the twentieth century progressed, he argues, democracies not only tortured, but set the international pace for torture. Dictatorships may have tortured more, and more indiscriminately, but the United States, Britain, and France pioneered and exported techniques that have become the lingua franca of modern torture: methods that leave no marks. Under the watchful eyes of reporters and human rights activists, low-level authorities in the world's oldest democracies were the first to learn that to scar a victim was to advertise iniquity and invite scandal. Long before the CIA even existed, police and soldiers turned instead to "clean" techniques, such as torture by electricity,

ice, water, noise, drugs, and stress positions. As democracy and human rights spread after World War II, so too did these methods. Rejali makes this troubling case in fluid, arresting prose and on the basis of unprecedented research--conducted in multiple languages and on several continents--begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib. The author of a major study of Iranian torture, Rejali also tackles the controversial question of whether torture really works, answering the new apologists for torture point by point. A brave and disturbing book, this is the benchmark against which all future studies of modern torture will be measured.

**We Have Your Daughter**-Paula Woodward 2016-09-22 New information from We Have Your Daughter has been revealed. Here is some of it. The Family As a top reporter in Denver, Paula Woodward was one of the few who had access to the Ramsey attorneys and thus the family. One of the prevailing questions in most of the television specials is about the bowl of pineapple on the kitchen table with Burke and Patsy's fingerprints on the bowl. That pineapple has been linked to JonBenét's death on some television broadcasts because of a reference in the autopsy to JonBenét having "fragments like pineapple" in her stomach. For more than a year after the murder, the pineapple theory behind her death was talked about. But when Boulder police finally had the material in her stomach tested at the University of Colorado in Boulder in October of 1997, they found out two months later in December, that the material was pineapple, plus grapes, grape skins, and cherries. That is food similar to that found in a fruit cocktail. What does that mean? This is the type of exclusive and factual information you will find in We Have Your Daughter that allows you to challenge preconceived theories. In 2010, Woodward interviewed Burke Ramsey specifically for her book. • Burke discussed his family and the chaos surrounding the case. Woodward has obtained a Boulder Social Services Evaluation of the Child about Burke Ramsey that states "From the interview it is clear that Burke was not a witness to JonBenét's death." That raises more doubts about those who believe Burke was involved in his sister's death and again reinforces the information Woodward has researched and uncovered. • In an interview with Burke Ramsey from 2010, he talks about his mom and how she taught him he could be optimistic or pessimistic about all the tragedies in their family. She chose positive for herself and so did he both believing it was important to find joy in each day. • After Patsy Ramsey was diagnosed again with cancer in 2002, she began sharing private

by guest

conversations with Paula in 2004 and 2005. This information was to be used after she died. • John Ramsey gave Paula access to his personal journal as well as access to JonBenét's personal drawings and photos The Handwriting Test Results Handwriting is another key controversial part of this investigation and story. Paula has information and findings that show issues with how Boulder Police handled this aspect of the investigation. She discusses the results of the handwriting. Exclusive Reports & Documents Investigative Reporter Paula Woodward reviewed portions of thousands of police reports and documents for her book. Here are some highlights of her findings which she includes in the book, all of which affected the investigation and the public's view of the family. Exclusive: The police report from the Boulder Police Officer who was FIRST to arrive on scene the morning of December 26, 1996 - before JonBenét's body was found and why he didn't find it. Exclusive: In the police report from the BPD Detective who stayed on scene until JonBenét's body was found - Paula lists some discrepancies in that report. Exclusive: Paula discovered what she calls a "deliberate campaign of disinformation" by law enforcement, based on information she received from her sources. She also cites issues with the media coverage, with outlets reporting information without verifying it. Woodward says much of the information and "anonymous leaks" reported were untrue and has all had an effect on the investigation. She cites several examples. Exclusive: Paula found found that Boulder police withheld the results of the DNA tests that excluded the Ramsey family from both the Boulder district attorney and the public. The evidence that was submitted as DNA excluded the Ramseys. In *We Have Your Daughter: The Unsolved Murder of JonBenét Ramsey Twenty Years Later*, Emmy Award-winning investigative journalist Paula Woodward offers an unprecedented, definitive, insider perspective on the twentieth anniversary of one of the most heinous, sensationalized, unsolved crimes in American history. Here for the first time, Woodward examines conversations and information from all sides of those involved in the case. She shares information compiled during the twenty years she reported on the murder, including private conversations with law enforcement individuals directly involved in the case, their thoughts and dissections of what went wrong and right, and who they now believe is the killer. Woodward has included drawings by JonBenét, letters from her teachers, and photographs that show a normal, happy six-year-old whose life was cut short in such a horrible manner. She shares portions of John Ramsey's private journal, where he wrote of his torment and grief in

the aftermath of the murder. And she recounts personal conversations with JonBenét's mother prior to her death from cancer in 2006. JonBenét's brother Burke talks publicly about his sister's death and how it affected the family and his life. *We Have Your Daughter* is an extraordinary work of journalism, twenty years in the making. It depicts a family under siege with their guilt or innocence still openly questioned. This book allows readers to decide in this heartbreaking story - was it Ramsey or an unknown intruder?

**Untouchable**-Randall Sullivan 2012-11-06 The investigative biography of Michael Jackson's final years: "A tale of family, fame, lost childhood, and startling accusations never heard before" (ABC Nightline). When Michael Jackson died on June 25, 2009, millions of fans around the world were shocked. But the outpouring of emotion that followed his loss was bittersweet. Dogged by scandal for years and undone by financial mismanagement, Jackson had become untouchable in many quarters. *Untouchable* pulls back the curtain Jackson's public person to introduce a man who, despite his immense fame, spent his entire life utterly alone; who, in the wake of a criminal trial that left him briefly hospitalized, abandoned Neverland to wander the globe before making one final—and fatal—attempt to recover his wealth and reputation. The Jackson that emerges in these pages is both naïve and cunning, a devoted father whose parenting became an international scandal, a shrewd businessman whose failures nearly brought down a megacorporation, and an inveterate narcissist who craved a quiet, normal life. Randall Sullivan delivers never-before-reported information about Jackson's business dealings, his relationship with his family, and the pedophilia allegations that derailed his life and mar his legacy today, as well as the suspicious nature of his death. Based on exclusive access to Jackson's inner circle, *Untouchable* is an intimate, unflinching portrait of the man who continues to reign as the King of Pop. "A dishy Michael Jackson biography that makes the exhaustively covered King of Pop fascinating all over again." —People

**Hell's Highway**-Gerri Hill 2011-11-17 FBI Agents Cameron Ross and Andrea Sullivan found the unexpected when they met amongst the warm red rocks and cliffs of Sedona—each other. That commitment, along with their ingenuity, courage and resolve, will be tested along the most barren of stretches in California's Mojave Desert. Someone is using the bleak highways to dump women's bodies. But in a landscape where an inviting road can curve into a sand-choked mirage, and a true oasis can be invisible under a white-hot sun, clues can blow away in the wind. In this sequel to Devil's Rock, Gerri Hill pits two remarkable women against the harsh and bitter desert and an implacable killer.

**Perfect Victims**-Bill James 2011-07-07 The Black Dahlia case. The Manson murders. The Zodiac Killer. The slaughter of JonBenet Ramsay. These killings, among many others in Bill James's astonishing chronicle of the history of American crime, have all created a frenzy of interest and speculation about human nature. And while many of us choose to avoid the news about gruesome murders, Bill James contends that these crime stories, which create such frenzy (and have throughout history), are as important to understanding our society, culture and history as anything we may consider to be a more 'serious' subject. The topic envelopes our society so completely, we almost forget about it. James looks at the ways in which society has changed by examining the development of how crimes have been committed, investigated and prosecuted. The book takes on such issues as the rise of an organized police force, the controversial use of the death penalty, the introduction of evidence such as fingerprinting and DNA, and the unexpected ways in which the most shocking crimes have shaped the criminal justice system and our perceptions of violence.

**K.I.S.S.**-Chuck Helmke 2009-02-25 K.I.S.S.: Keep Individual Security Simple by Chuck Helmke and Charlotte Guttenberg is a primer for individual security (self-defense). Although K.I.S.S. offers advice and tips useful to any age group or gender, the writers are particularly interested in the concerns of senior citizens and people with disabilities, people who may think they cannot defend themselves. They do this utilizing a fictitious group of senior citizens and the problems they encounter with a gang that is victimizing them. The writers are senior citizens who recognize issues that can easily be overlooked in other training courses by trainers who have yet

to experience the tolls of age. Helmke says, I have tried to address problems in a down-to-earth manner that is readily understandable, regardless of the present training level of students. There is no one-size-fits-all answer to this type of training. Statistically, the safest defensive solutions are avoidance, deterrence and de-escalation. They have proven to be absolutely the safest way to live your life. However, these three solutions can fail because of something we did not do or because of something totally out of our control. If avoidance, deterrence and de-escalation have failed to defuse a volatile or violent situation and a life-threatening situation is imminent, I have problems with the idea of hand-to-hand combat for most people. The only true equalizer for these types of potentially life-threatening situations, in my humble opinion, is a handgun. That is my defensive choice. For whatever reasons, if you feel that is not your choice, then I will do my best to address some possible alternatives you may choose to use. That said, I feel the handgun is the best possible defensive weapon for anyone, especially women, senior citizens and people with disabilities. It might prepare you for the day I hope never comes. In the words of some experts in the world of defense who have read K.I.S.S.: Keep Individual Security Simple: Brent Shepherd, Director of Operations at the American Police Hall of Fame Shooting Center says of K.I.S.S.: This is the most straightforward explanation of applied personal safety principles I have ever read. The concepts and practical applications are easy to follow and this book provides insights that can benefit everyone. Retired Philadelphia policeman, Steven O. Forester says: This book offers you the opportunity to learn how to be a survivor of the worst thing that could happen to you, the loss of your life or that of your loved ones. The world is changing and not always for the good. Dont let the bad guys win. Give yourself the edge to come out of that situation a winner. Remember, age is just a number, if you prepare your mind and body to do the task, it can be done. Retired deputy sheriff, C.J. Gibson says: After Mary became a victim of a purse snatching, Arthur and Louise, along with their neighbors decided not to be victims any longer and took some personal initiative to prepare themselves for individual security. In a society plagued with increasing violence, Helmke and Guttenberg provide an easy, fun read and practical advice for anyone interested in taking responsibility for their personal security. They deliver this advice utilizing an elderly couple with physical challenges and limitations often faced by our aging population. Helmke and Guttenberg are passionate and knowledgeable in the task of personal safety. They provide sound, real life,

practical concepts to begin your quest of individual security. Special Agent Jeffrey Stover, Retired U.S. Secret Service says: If you decide to kill a fly -- you kill it with a sledgehammer you know how a fly can be such a pest -- you move your hand to make it move away or try to swat it with your hand -- but can't quite get it. Her new job involves a cruise to the Bahamas with her boss to investigate an enforcer for the Mob. But this will be like no other job she has encountered. By the end of the voyage she has chased suspects through the

tropical islands, been in physical confrontations with knife, fist and firearms; the deck is awash in blood. Can she survive the deadly fun cruise--and her boss--who may prove more deadly than the Mafia men she uncovers?
